SUMMARY

Frontend Developer with hands-on experience in building responsive and scalable web applications using HTML5,CSS3,JavaScript(Es6),Bootstrap and React.js.Strong understanding of DOM manipulation,component-based architecture,and REST API integration.Built multiplr real-world projects including a Job Portal Application focusing on performance,usability and clean UI design

EDUCATION

Bachelor of Technology,Computer Science and Engineering 09/2022 – 04/2026
Andhra Loyola Institute of Engineering and Technology
Percentage:78%

SKILLS

Languages
HTML5,CSS3,JavaScript(Es6+)

Frameworks
React.js,Bootstrap 5

Tools
Git,GitHub,VS Code

Advanced
Component-Based Architecture,State Management, API Integration

LANGUAGES

- English
- Hindi
- Telugu

PROJECTS

Job Portal Application (React+Redux)
Tech Stack: React.js,Bootstrap,Localstorage
- Built a scalable **JobPortal application** following a clean component-based architecture.
- Developed a **search and filtering features** to enhance discovery and user experience.
- Implemented job search, saved jobs, job applications, and job management using React.js with Local Storage.
- Improved applications quality through **error handling,UI optimization and deployment on Vercel with GitHub version control**

Smart Weather & Form Validation App
Tech Stack: HTML,CSS,JavaScript
- Dynamic web application using **core Javascript concepts** including variables,data types,conditions,and loops
- Implemented **DOM manipulations and event handling**(onclick,onsubmit) for interactive user experiences.
- Built **form validation using Regular Expressions,**ensuring accurate and secure user input handling
- Created a **Weather Application using Fetch API with async/await and Promises** for real-time data integration

Responsive District UI Design
Tech Stack:HTML,CSS
- Design a modern **district user interface using Bootstrap,HTML5 and CSS3** with clean and professional layout
- Built a **fully responsive design using Bootstrap grid system,**ensuring compatibility across mobile,tablet,and desktop devices.
- Developed key UI Sections like **navigation bar,carousel,banners and footer** with reusable components
- Enhanced user experience with **interactive elements,hover effects and structured navigation.**
